Mini-Split Heat Pump (17 SEER or greater)				ton(s)	\$600	
				<b>Subtotal</b>		

**Requirements:**

- Provide itemized invoice of equipment with manufacture name and model number.
- All equipment must be new and be installed on Red Lake Electric Cooperative's system.
- Electric heating system must be on off-peak with a qualified backup heating system.
- Electric heating must be the primary source designed to heat the building.
- Electric heat is individually metered under a special rate.
- Electric heat equipment must be hard wired (no plug-in loads eligible for rebate).
- Air-source heat pumps and mini-splits do not have to be part of an off-peak heating system to be eligible for this rebate.
- Air-source and ground-source heat pumps must meet the CIP requirements outlined in the electric heat program description.
- Rebate not to exceed more than the purchase price for all eligible heating equipment rebates.
